## ☰ Resume objective

Versatile full-stack developer specializing in React, TypeScript, Fast API, and Flutter, with hands-on experience building web and mobile applications for forensic analysis, construction, and client projects. Former Chef turned software engineer with exceptional adaptability, team leadership, and ability to thrive under pressure. Combines technical precision with creative problem-solving to deliver.

## 💼 Work experience

### Full-Stack Developer
Mar 2025 - Present

*LeadsOnline, Montreal*

- Develop and maintain ClearCase, a web app (Next.js), mobile app (Flutter), and API (FastAPI) used by law enforcement worldwide to match bullet evidence between crime scenes
- Build features across the full stack to help investigators connect ballistics data and identify links between cases
- Work with forensic experts and engineering teams to ensure the platform is accurate, fast, and meets requirements

### Professional Development
Sep 2024 - Mar 2025

*Self-Employed, Montreal*

- Completed courses in React, TypeScript, Next.js, Flutter, FastAPI, Unity, and Unreal Engine
- Built e-commerce platform, portfolio site, and game projects to practice full-stack and game development
- Transitioned from culinary to software development through self-learning and hands-on projects

### Flutter Developer Intern
May 2024 - Sep 2024

*DevXpress, Montreal*

- Built features for a Flutter mobile app used by construction workers to manage job sites and track work progress
- Developed UI components and integrated REST APIs to improve app performance and user experience
- Worked with a startup team of 5 on feature development, bug fixes, and testing in an agile environment

### Culinary Instructor
Oct 2019 - Sep 2022

*Ateliers & Saveurs, Montreal*

- Taught cooking classes to students and the public, covering international cuisines and culinary techniques
- Managed kitchen operations including staff, scheduling, inventory, and recipes
- Created a lot of delicious food

# 📋 Projects

**E-Commerce Platform**

*Next.js, TypeScript, Prisma, PostgreSQL, Stripe API*

- Built full-stack online store selling clothing, household items, and food with user authentication, shopping cart, and wishlist functionality
- Implemented admin dashboard for product management, order tracking, and customer reviews using Prisma ORM with PostgreSQL
- Integrated Stripe payment processing with secure checkout flow and order confirmation emails

**Portfolio Website**

*Next.js, TypeScript, Tailwind CSS*

- Personal site showcasing development projects with particle effects and smooth animations
- Built with modern React patterns, responsive design, and optimized for performance

**Recipe App**

*Flutter, Firebase, Recipe API*

- Developed a cross-platform mobile application using Flutter to browse, search, and save recipes from an external Recipe API
- Designed an intuitive UI/UX with smooth navigation, categorized browsing, and search filters

# 🎓 Education and Qualifications

**Management Information Systems and Services**                    Jan 2022 - May 2024

*Institut Teccart, Montreal*

- Focused on building mobile and web applications, databases, APIs, and IT services
- Developed practical skills in full-stack development, systems management, and application deployment

**Professional Cooking**                                          Sep 2012 - Jun 2014

*Institut de Tourisme et d'Hôtellerie du Québec (ITHQ), Montreal*

- Completed professional chef training with hands-on experience in classic and contemporary cooking techniques
- Developed skills in teamwork, time management, and high-pressure kitchen environments
